Doughnuts have become a distinctly American favorite food and you can find them in different colors, flavors and with different fillings and decoration.

We would like to share with you how Hacienda Encantada pastry chefs prepare Donuts. SURF & TURF IN CABO

From the coast of Baja Sur, Jack's Steak House gives new life to this ever popular favorite dish. Surf & Turf is created using locally sourced ingredients as the stars of the dish to assure freshness and high quality. An array of colorful ingredients are used to create not only a delicious dish, but a vibrant and beautiful plate and you can enjoy it from home too! Both the ingredients and prep steps are quite simple, here is what you need -

Salt and pepper for seasoning, lobster tail, vegetables needed are potatoes, corn, tomatoes, squash and or zucchini, and a quality cut of beef, we recommend Rib Eye. Once your grill is properly heated you are ready to grill! The potatoes are sliced then wrapped in aluminum foil and can be put in the coals if you aren't using charcoal, toss'

em in the oven to bake. Over even heat, start with the RibEye. It should be pre seasoned with salt and pepper. The steak will take longer to cook than the lobster. After a few minutes of putting on the steak, add the veggies in the grill or in a skillet pan pre-seasoned with salt and pepper and olive oil.

Once all of the lobster is grilled and cooked evenly which is similar to shrimp per cook time, char on the grill and then move to a cooler part of the grill and close to cook throughout. Once ready and the steak has rested, you can slice, and serve. The combination of the vegetable colors and the tastes of the surf and turf will remind you of Cabo in your backyard!

¡Buen provecho!
