## SPRINGTIME IN CABO: MORE THAN A PARTY DESTINATION

*Nature, adventure, and unforgettable moments beyond the nightlife*

Cabo San Lucas is widely known for its vibrant nightlife, yet this destination has much more to offer travelers looking for a Spring Break focused on outdoor experiences and quality time with family and friends. Beyond the parties, Cabo invites visitors to explore its natural wonders and discover moments that create lasting memories.

At Mexico Grand Hotels, our team is always ready to share recommendations for activities and experiences that make every stay unique, whether your ideal getaway includes relaxation, adventure, or a balance of both.

Cabo's beaches are the perfect place to spend the day. From relaxing on the sand to enjoying water activities like kayaking, the crystal-clear waters and warm weather encourage guests to fully embrace each moment. The region is also a haven for nature lovers, offering boat tours to observe marine life and excursions that provide a deeper appreciation of local ecosystems.

One of the season's most remarkable experiences is whale watching, a natural phenomenon that draws visitors year after year. Witnessing these majestic animals in their natural habitat is a moving experience, especially for families seeking an activity that is both exciting and educational.

Cabo is also a prime destination for golf enthusiasts. Its world-class courses, set against stunning desert and ocean landscapes, make every round a memorable experience. For those looking for something different, camel rides through the desert offer a unique way to explore the region's dramatic scenery.

As the day comes to a close, enjoying a meal by the sea becomes the perfect way to unwind, with breathtaking views that invite relaxation and appreciation of Cabo's natural beauty.

In essence, Cabo San Lucas offers far more than nightlife alone. With a blend of nature, adventure, and family-friendly experiences, it stands out as the perfect backdrop for a truly memorable Spring Break.

## KADUN: A BOOK HONORING THE LEGACY OF THE PERICUES

*A literary journey into the history of the southern Baja peninsula*

More than a book, Kadun is a literary exploration of the Pericues, the original inhabitants of the southern Baja peninsula. Through historical narrative and thoughtful storytelling, this publication brings to life the origins, beliefs, and experiences of a culture deeply connected to the land and the sea.

The book traces key moments in the region's past, from ancestral ways of life to encounters with explorers and the arrival of missionary expeditions. These stories reveal a territory shaped by resilience, adaptation, and the meeting of worlds, offering a deeper understanding of the foundations of this part of Baja California Sur.

Carefully curated and rich in detail, Kadun preserves the memory of the Pericues and their lasting presence in the region's identity. It invites readers to look beyond the present and connect with the historical roots that continue to define the spirit of the southern peninsula.

Kadun is available for purchase at \$36 USD. For more information, please contact your Concierge.

## EL PATIO: FRESH INNOVATION WITH A SIGNATURE TWIST

*Creative mixology and bold new  
flavors that redefine the classics*

At Hacienda Encantada, El Patio continues to evolve with a fresh and innovative approach to timeless favorites. Always seeking to reinterpret the classics, this vibrant dining space introduces new culinary creations and cocktails designed to surprise and delight every palate.

Behind the bar, creativity takes center stage. Discover Italian-inspired margaritas crafted with tequila, limoncello, fresh basil, and yellow lemon juice—an elevated citrus twist on a borderless classic. The Margarita Choyera pays tribute to Baja California Sur, featuring Guaycura (Damiana) liqueur and rosemary, enhancing the herbal depth of tequila with local character. For those who appreciate iconic simplicity, the Honey Deuce blends Grey Goose vodka, Chambord, and lemonade into a refreshingly elegant cocktail. Meanwhile, the Saint Germain Spritz offers a light, floral sparkle—perfect for a warm, sun-filled afternoon by the pool.

In the kitchen, the new menu celebrates fresh regional ingredients through global techniques. Salads take on an Asian-inspired fusion, such as the Thai Tuna Salad with watermelon and peach—an irresistible balance of sea and land with sweet-and-sour notes and mixed seeds. The Patio Salad combines grilled shrimp, local mango, miso dressing, and crisp napa cabbage for a refined and vibrant flavor profile.

Classic ceviches are reimaged with distinctive touches. The Campechana de Mariscos honors tradition while incorporating regional seafood and the creative techniques of our chefs. The Pacific Ceviche features poached shrimp and fresh fish in a creamy cilantro sauce, enhanced with house-made salsa macha, hints of habanero, sesame seeds, and chives—an explosion of flavors that goes beyond the conventional.

At El Patio, innovation meets authenticity in every dish and cocktail, inviting guests to rediscover the joy of familiar flavors presented in bold and refreshing new ways.

## TEMAZCAL: A SACRED JOURNEY OF RENEWAL

*An ancestral ceremony that purifies the body, calms the mind, and restores inner balance*

Rooted in ancient Mesoamerican traditions, the Temazcal is a ritual that has been practiced for thousands of years by civilizations such as the Aztecs, Mayans, and Toltecs. Its name comes from the Nahuatl word temázcalli, meaning “house of heat,” and it represents a powerful ceremony of purification and rebirth that extends far beyond the physical body.

During the experience, participants are guided by a shaman inside a circular, enclosed space where heated volcanic stones are placed at the center. Herbal infusions are poured over the stones, releasing aromatic steam that fills the space with warmth and intention. This combination of heat, humidity, and natural herbs supports deep cleansing of the skin, stimulates circulation, and helps purify the respiratory system.

Throughout the ritual, refreshing elements such as cool towels and soothing aloe vera are applied to balance the intensity of the heat and enhance the detoxifying process. The ceremony concludes with a cold shower, helping to close the pores and leaving the body feeling revitalized and renewed.

More than a wellness treatment, the Temazcal is a spiritual experience that reconnects participants with ancestral wisdom and the healing traditions of Mesoamerican culture. At Milagro Spa, guests are invited to embrace this meaningful ritual and discover a profound sense of harmony, renewal, and well-being.
